

ETIHAD AIRWAYS TO COMMENCE SERVICE TO VIENNA

News / Airlines, Airports / Routes

Etihad Airways will launch flights to Vienna this summer. The service will operate twice weekly using a Boeing 787 Dreamliner from 18 July 2021. The new service has been conveniently timed to arrive early morning in Vienna to provide travellers between the UAE and Austria an ideal weekend getaway. Travellers visiting Vienna will enjoy centuries old culture and breathtaking scenery. The Austrian capital has been consistently voted the world's most livable city.

For Etihad Guest Members wanting to redeem their well-earned miles, Vienna is the ideal destination. Members have access to best value seats with their miles, plus countless hotel and car partners to suit their travel needs.

Austria is currently open to nationals and residents of Austria, residents of Schengen-member states and Switzerland, business travellers and students. Visit etihad.com/destinationguide for more details and exemptions.

To simplify the travel experience and provide additional peace of mind, Etihad recently launched

Verified to Fly, allowing guests to validate their Covid-19 travel documents before arriving at the airport. Travellers who use Verified to Fly can enjoy fast track check-in at the airport by going to the dedicated Verified to Fly desk for a quicker and smoother experience. To use the Verified to Fly service, guests can sign-up by visiting [Manage my Booking](#) and will receive further information on how to submit their documents.

For more convenient travel options, guests can also check in for their Etihad flight from the comfort of their own home by visiting etihad.com/homecheckin up to seven hours before their flight. This means passengers can check in their bags, choose their seat and collect their boarding pass and luggage tags from their home in Abu Dhabi. Once at Abu Dhabi International Airport, all non-transit passengers who have used the home check-in service can skip the queues bag-free, making the airport journey seamless. Luggage will need to be collected at the destination baggage belt.

Flying to, from, and via Abu Dhabi is supported by the airline's fully redesigned sanitisation and safety programme, Etihad Wellness, which ensures the highest standards of hygiene are maintained at every stage of the customer journey.
