

ALTO AVIATION AND INNOVATION ADVANTAGE PARTNER ON A/V SYSTEM

News / Business aviation

Alto Aviation of Sterling, Mass., added to its line of premium cabin entertainment systems for business aviation, having reached an agreement with **Innovative Advantage** to use the latter's AVDS nodes as part of the Alto audio/video solution under a private label. AVDS video distribution systems support video switching to multiple monitors in either standard definition or high-definition modes.

Aimed at the retrofit market, Alto's systems provide advanced, cost-efficient, turnkey cabin entertainment upgrade options. With the addition of the AVDSnode and an onboard wireless Wi-Fi router, the audio and video system may be controlled by Apple or Android personal devices.
