

GOGO BUSINESS AVIATION 51,000 FIVE ARE ANNOUNCED

News / Business aviation

Here they are, highest dealer honors for 2018 from Gogo Business Aviation– the Gogo Business Aviation *51,000 Five!* The award recognizes the highest-performing organizations in the company's global dealer and distributor network, as chosen by the Gogo Business Aviation executive team.

Recipients of the Gogo Business Aviation *51,000 Five* award for 2018 are (in alphabetical order):

- Dassault Aviation
- Duncan Aviation
- Gulfstream
- Textron Aviation
- West Star Aviation

The awards will be presented today at 1 p.m. PT at Gogo's booth (419) at the 62nd annual Aircraft Electronics Association International Convention & Trade Show at the Palm Springs Convention Center in Palm Springs.

"Our dealer partners are a key part of our success," said David Salvador, vice president of

aftermarket sales for Gogo Business Aviation. “Our dealer partners not only provide great service but understand how important it is that our mutual customers have a good experience before, during and after their inflight connectivity and entertainment system is installed. We congratulate and thank the 2018 winners of the Gogo Business Aviation 51,000 Five award.”

Award selection is based on the dealer’s demonstrated commitment to helping customers get the most out of in-flight connectivity, as well as their technical expertise, sales performance and other factors. Representing a pinnacle of achievement for a Gogo Business Aviation dealer, the award’s name was inspired by the highest altitude reached by aircraft in the business aviation industry – 51,000 feet.

What is Gogo Business Aviation

Gogo is the inflight internet company. We are the leading global provider of broadband connectivity products and services for aviation. We design and source innovative network solutions that connect aircraft to the Internet, and develop software and platforms that enable customizable solutions for and by our aviation partners. Once connected, we provide industry leading reliability around the world. Our mission is to help aviation go farther by making planes fly smarter, so our aviation partners perform better and their passengers travel happier.
