

GORKA – FIRST CLASS HELIPORT

News / Business aviation

In the Odintsovo district of Moscow region, in the heart of amazing places with a rich history of Nikolina Gora, in the village of Aksinyino you find heliport "Gorka" - the largest helicopter center in the Moscow region and the only helicopter house, which received the status of the heliport. Developed infrastructure and development plans for caught my attention and forced to spend on its territory a few unforgettable hours.

Heliport "Gorka" is a part Moscow Region transport' infrastructure development program until 2030. It is a complex able to receive and serve helicopters of world's leading manufacturers - Robinson, Bell Helicopter, Airbus Helicopter, AgustaWestland. Built and received its first guests in November 2014, heliport "Gorka" gained a real popularity among Moscow helicopter owners and is a real first class.

Pine forests staring into the sky, the hills on the banks of the Moskva River and the small villages with their modest homes, not palaces, fences, turned the Ilinskoe highway in a mysterious and intimate maze. All this is familiar diversity Rublevo-Uspensky direction is left behind, and the first thing that catches your eyes at the entrance to the village Aksinyino - multi-colored flags on high flagpoles and ample parking in front of the terminal , crowned by a statue of a mysterious cow for 100 cars at a one time. Welcome to the heliport "Gorka"!

Heliport has three landing sites equipped with lighting equipment and apron, with a total of 5000 square meters, designed to park 11 helicopters of various modifications with the maximum take-off weight up to 13 tons.

It is worth mentioning that the heliport "Gorka" is one of the few heliports, with the so-called "night start" - the latest lighting equipment in accordance with all rules of safety-night flights.

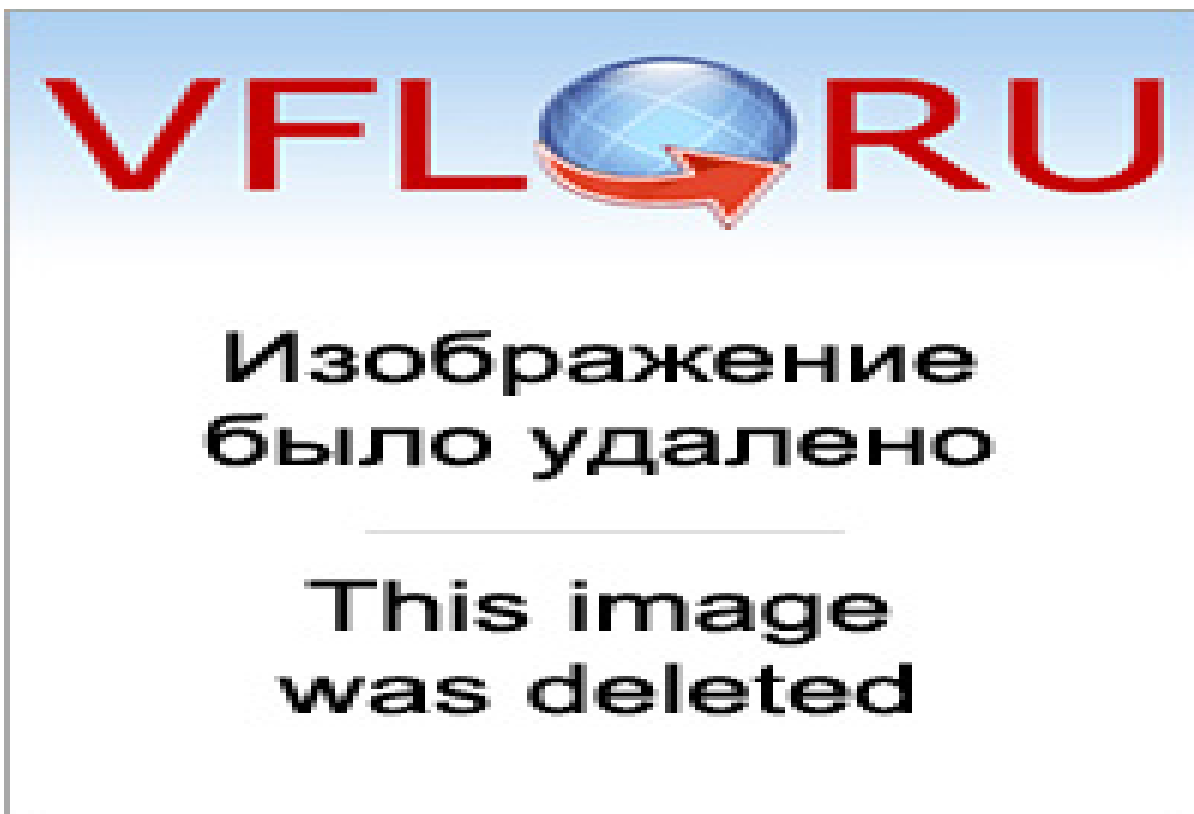

Special heliport "Gorka" business card- a new terminal which is under construction and administrative building in one. The area of this convoluted five floor design decision around 1500 m will include a vast waiting room, café and restaurant for 70 visitors, hotel, consisting of 10 comfortable two-bed rooms, aviation shop, administrative offices and a control tower.
