

VIP COMPLETIONS DELIVERS REVITALIZED DASSAULT FALCON 2000EX EASY

News / Business aviation, Maintenance / Trainings

VIP Completions, providers of custom aircraft refurbishment and completions services, today announced the delivery of a completely revitalized Dassault Falcon 2000EX EASy. The 2000EXy offers a range of 4,000+ nautical miles, easily providing non-stop service between New York and Los Angeles. Typically configured for 10 passengers, it is renowned for its excellent performance. Manufactured between 2004 and 2009, approximately 103 2000EXy aircraft are in service worldwide today.

Ben Shirazi, President, VIP Completions commented: "This is an exceptionally beautiful aircraft interior featuring the latest generation CMS and IFE technologies. We had the pleasure of working with a client with a very clear vision. For example, the exact color and texture of the wood veneer was particularly important for him. Our in-house team of designers, craftsmen and technicians blended colors, materials and technologies to create a uniquely luxurious environment that illustrates the elegance of modern private aviation. We invite aircraft owners seeking to revitalize their in-flight experience to contact us at their convenience."

Design highlights:

- Custom luxury seats upholstered with premium Garrett contrasting leathers and piping details
- Two-tone lower side wall with Garrett suede detailing
- ARCA Statuaria polished marble counter tops
- Scott Group custom-designed Modern Deco carpeting throughout cabin
- Tapis Ultraleather trim
- Iron ore curly maple wood veneer
- Satin ultrablack metal plating
- Garrett sheepskin upholstered cockpit seats

Cabin management system and in-flight entertainment highlights:

- Custom ALTO audio system with eight speakers and two subwoofers calibrated for cabin using ALTO's MySound™ optimization tool to ensure perfect sound
- Crestron CMS with two MagSafe iPad mounts and two touch panels integrated into drink rails
- Upgraded and upsized high-definition monitors
- Apple TV compatibility
- Dynamic RGB lighting
- Plex media server that provides virtually limitless content options
