

CIRRUS AIRCRAFT LAUNCHES NEW PRIVATE PILOT TRAINING PROGRAM

News / Maintenance / Trainings, Manufacturer

Cirrus Aircraft announced new Private Pilot Program designed to teach anyone to learn how to fly an SR Series Cirrus aircraft and earn their pilot's license. The Private Pilot Program provides an immersive ground school training partnered with a dedicated Cirrus Standardized Instructor Pilot through a Cirrus Training Center to help students complete their Private Pilot License in a Cirrus aircraft.

The Private Pilot Program includes 11 modules with 40 engaging lessons that take you through the pre-study material, ground instruction lessons, flight instruction videos, performance assessment and quizzes. Captivating by design, the Private Pilot Program is a highly specialized training program offering specific flight training content to learn to fly a Cirrus aircraft alongside a dedicated CTC and CSIP by leveraging study materials designed and written by Cirrus Aircraft's flight training experts.

Zeane Nielsen, Chief Executive Officer of Cirrus Aircraft, commented: "Learning to fly and earning a pilot's license is what moves the personal aviation industry forward. From day one, our mission

has been to grow engagement and participation in personal aviation, and our new Private Pilot Program makes that experience easier and smoother along the way.”

Cirrus Aircraft is renowned for the innovation and design it has introduced to the personal aviation industry. As the first to include the glass cockpit for workload reduction and the only manufacturer to include the Cirrus Airframe Parachute System as standard equipment on every aircraft, the company continues to lead in its innovative spirit which is reflected in the Private Pilot Program.

Designed and developed by Cirrus Aircraft’s pilots and experts, the Private Pilot Program is the industry’s first program that focuses on learning to fly an SR Series aircraft. Furthermore, the program breaks down barriers and is unique in that it pairs you with a dedicated Cirrus training partner who will encourage you to complete your PPL. The Private Pilot Program is now available through Cirrus Aircraft’s corporate-owned flight training locations and U.S. Network Partners.
