CIVIL AVIATION ACADEMY OF KAZAKHSTAN CHOOSES ALSIM ALX

News / Maintenance / Trainings

The Civil Aviation Academy of Kazakhstan, a valued long-term Alsim customer who has already been operating an ALSIM AL200MCC for several years, recently decided to purchase an ALSIM ALX simulator.

The ALSIM ALX FSTD provides up to 4 classes of aircraft–from single engine piston, twin engine piston, twin turbine up to medium category twin jets (generic B737/A320). The device is designed and approved for ATPL, CPL/MCC and JOC in compliance with all current regulatory standards. The ALX offers advanced technology simulation equipment tailored to your specific training requirements. In addition, it has a proven track record for cost-effectiveness and helps save numerous aircraft hours.

Mrs Audrey Jeffroy, ALSIM Sales Director said: “It has been a pleasure working with Captain Ilyâs Issakov on this project”.

Civil Aviation Academy of Kazakhstan is the leading institution of higher education who provides training for the civil aviation industry of the Republic of Kazakhstan and Central Asian countries. This academy is based in the city of Almaty and was created in 1995. The school’s philosophy is to deliver a quality of educational services.
