

TECNAM LAUNCHED THE FIRST LEG OF THE TRAVELLER TOUR

News / Business aviation, Events / Festivals, Manufacturer

Tecnam Aircraft will be displaying the P2012 Traveller at the upcoming NBAA BACE in Las Vegas from October 12 to 14. The Traveller will be on static display at the Henderson Executive Airport prior to its departure for the Soar Higher Tour across the United States. This new generation aircraft provides owner operators a cost-effective platform that offers a multi mission cabin and operational options.

The Traveller features a complete Electronic Flight Deck and Avionics by Garmin, Air Conditioning, All Weather Operational Capabilities combined with smart operating economics and certified to the latest safety regulations. These qualities place the P2012 in a class by itself. The Traveller platform offers multi-role cabin for Executive Seating, Special Missions, Commuter, Cargo, Combi, Paratroop and Medevac.

The Soar Higher Tour is the first Tour for this aircraft throughout the US. This tour offers an up close and personal opportunity to see the Traveller and to experience the flying qualities and opportunities that the P2012 offers while meeting with Tecnam Leadership and the Demonstration Team.

October Soar Higher Tour

12, 13, 14 - Las Vegas (HND)
18 - Los Angeles (LGB)
19, 20 - Phoenix (SCF)
21 - Dallas (DAL)
22 - Memphis (MEM)
25, 26 - Nashville (BNA)
27, 28 - Atlanta (PDK)

Soar Higher Tour registration form is available on Tecnam's official website along with the dedicated contact information.

David Copeland, Tecnam US Director said: "The P2012 is a breakthrough aircraft that can fulfil the countless operational missions within the US marketplace with unmatched efficiency, safety and value. No other aircraft in current production even comes close to the Traveller's flexibility that translates to operational bottom line profitability."

Francesco Sferra, Tecnam P2012 Sales & Business Development Manager and Experimental Test Pilot stated: "The P2012 aircraft series, designed to attain efficiently the ultimate certification standards, brings to the US market a proven, safe, valuable, and flexible solution to small operators as well as private owners. The Traveller is ready to "Soar Higher" and the upcoming US tour is just the start!"
